

Download Colchester Triumph Manual

At Colchester Lathe Spares we offer spare parts for the lathes once manufactured by the Colchester Lathe Company Ltd. We supply new and used parts. The apron was doubled walled, with its shafts supported on ball bearing at each end and all the gears hardened and ground; the base was closed off to form an oil bath to splash lubricate the internals and at the top of the front face, just to the right of cross-feed screw, was a push rod for the hand-operated plunger pump that fed lubricant from the same supply to the bed, cross-slide ways and ... Built during February 1968, at the Company's long-established Essex works, the first production Triumph 2000 was the second Model in a new range of lathes introduced by Colchester during the latter half of the decade. At Colchester Lathe Spares we offer spare parts for the lathes once manufactured by the Colchester Lathe Company Ltd. We supply new and used parts.
