"Head Shot presents a unique and fascinating correlation of history and science with the government's investigation of the assassination of President Kennedy. Thanks so much Mr. Jensen. Everyone should see this film who has not. Two guys, on their own, did almost all the work to put it together. They even tracked down Cousins daughter. Her closing comments are memorable. And they got Morgan Freeman to narrate it. To me, its the best documentary yet on ... "Head Shot presents a unique and fascinating correlation of history and science with the government's investigation of the assassination of President Kennedy." Head Shot is one of the most important books ever written on the JFK assassination. It is a must-read." -JFK Assassination Web Page

"[Chambers] writes very clear prose that takes on a dizzy, endearing lyricism only when he dwells on the wonders achieved by science.
