

Download Hurricane Manuel Sinaloa

Hurricane Ingrid was one of two tropical cyclones, along with Hurricane Manuel, to strike Mexico within a 24-hour period, the first such occurrence since 1958. Ingrid was the ninth named storm and second hurricane of the 2013 Atlantic hurricane season. It formed on September 12 in the Gulf of Mexico from a broad disturbance that also spawned Manuel in the eastern Pacific. The 2013 hurricane season in Mexico for Pacific coast storms starts on 15 May and lasts until 30 November. For Atlantic storms, the hurricane season extends from 1 June to 30 November, though most hurricane activity is concentrated in the months from July to September. The 2013 Pacific hurricane season was the costliest Pacific hurricane season on record, with a total of about \$4.2 billion in damages. The season produced above normal activity; however, the majority of the storms were weak. The season officially began on May 15, 2013 in the Eastern Pacific and started on June 1, 2013 in the Central Pacific. Security chief of captured Sinaloa Cartel boss 'El Chapo' found dead Killing of Manuel Alejandro Aponte Gómez raises fears of violent struggle for control of Mexico's most powerful cartel ...
