

# Download Nurse Practitioners Business Practice Legal Guide 2nd Edition

Sessions & Tacks. Track-1: Nurse Practitioner Nurse Practitioners are Registered Nurses who serve as primary and specialty health care providers under a physician. They can specialize in family practice, pediatrics, women's health, mental health and more. Most Nurse Practitioners work alongside doctors in a hospital or outpatient facility, but some run their own private practices.18. A nurse is caring for a patient who is a practicing Jehovah's Witness. The physician orders 2 units of packed cells based on his low hemoglobin and hematocrit levels. The registered nurse first assistant (RNFA) is a perioperative nurse who is board certified in perioperative nursing (ie, CNOR), has matriculated from an RNFA education program, and whose practice is in compliance with statutes, regulations, and institutional policies relevant to the practice of RNFAs. HCPro's library of books provides insight into evidence-based best practices, compliance, and regulatory updates across all healthcare practice settings.
